THE BLR CARGO EXPERIENCE

Experience reliability, like nowhere else.

We take responsibility for delivering goods and smiles around the globe and are driven to go the extra mile every single day.

What does **RELIABILITY** stand for?

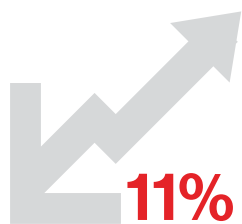

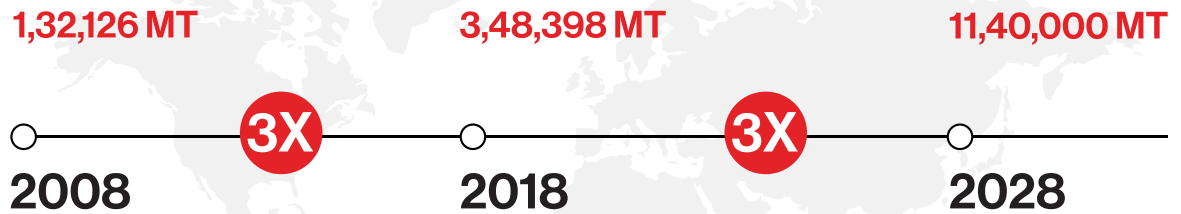

VISION OF BLR CARGO

To be the New Gateway of Choice for Trade Connectivity in India

BLR Airport is India's 3rd busiest in terms of cargo processing. Great connectivity and transport infrastructure make BLR Airport the gateway of choice for our cargo partners. Our logistic solution-driven approach along with our efficiency has helped organisations cut down their costs on logistics, giving them more time to market and provide the best customer service. BLR Airport plays a key role in ensuring that the products reach their destinations on time.

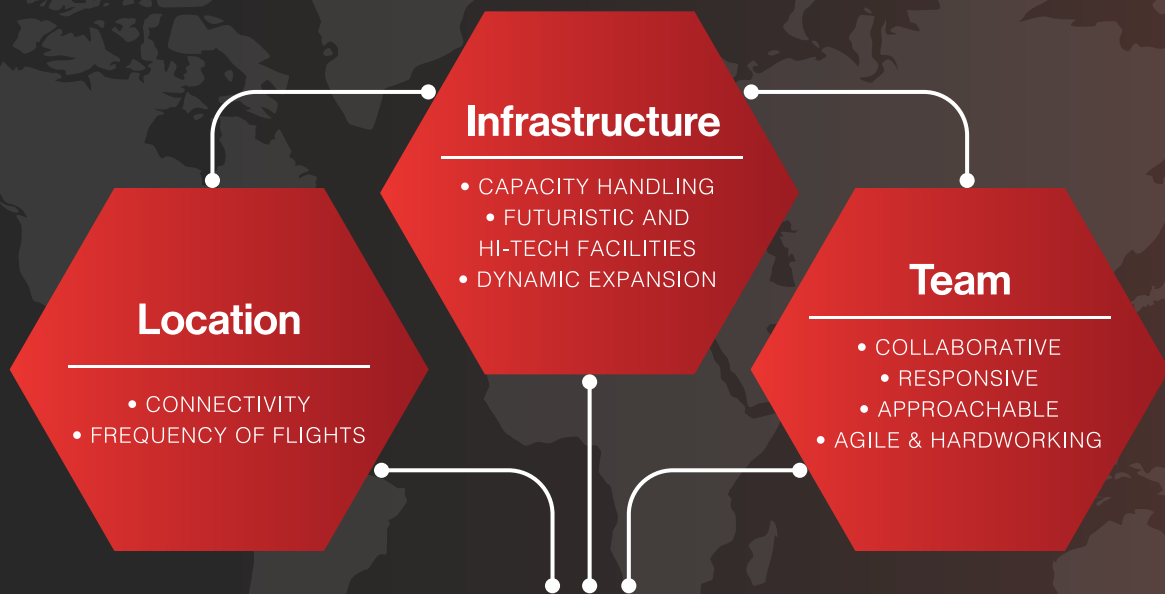

WE'RE EFFECTIVELY TRIPLING IN SIZE EVERY 10 YEARS

11% CAGR 2008 – 2019

INFRASTRUCTURE THAT ENABLES EFFICIENCY

QUALITY OF INFRASTRUCTURE AND CAPACITY

7,15,000 MTPA

Largest cargo holding
capacity in South India

State-of-the-art Infrastructure and Facilities

OUR INFRASTRUCTURE

BLR Airport provides consistent and reliable world-class air cargo solutions with a focus on the needs of our customers. We have one of the most mechanised cargo terminals in the country.

Latest technology and systems in warehouses

- Automatic Storage & Retrieval System (ASRS)
- Elevated Transfer Vehicle (ETV)
- Very Narrow Aisle Truck (VNA)
- High rise racking
- Lift and Run System (ULD movement)
- Reach stackers with bar code readers and handheld devices
- Pallet handling system for storage of built-up pallets/containers
- X-rays and cold storage
- Secure area to load and unload with a canopy
- Trans-shipment room
- Advanced IT systems for handling

Cargo handled

The types of cargo handled include general, perishable, trans-shipment, express mail and courier, special cargo (VAL, AVI, DGR), etc.

Storage facilities

Storage facilities consist of ULD, bulk cargo, skidded cargo, separate strongroom, separate dangerous goods room, trans-shipment handling area, bulk cold, ULD cold, mail and courier areas, animal handling area, service centres.

COLD CHAIN AT BLR AIRPORT

BLR Airport has a cold-chain handling capacity of 60,000 metric tonnes per annum.

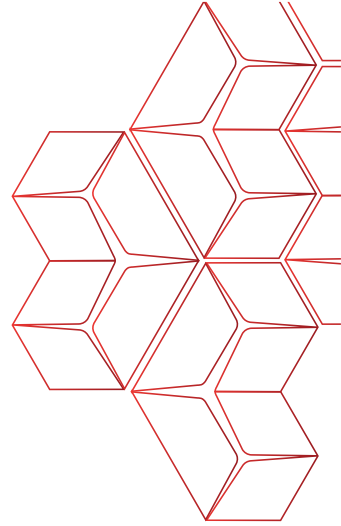

Air India **SATS COOLPORT**

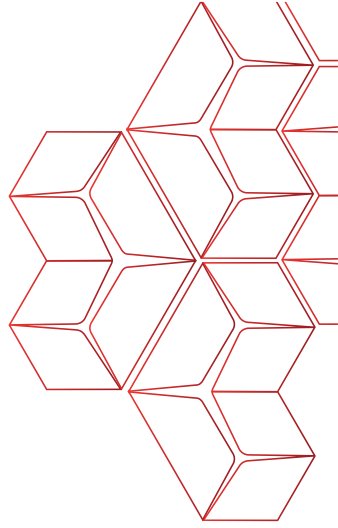

BLR Airport hosts India's first integrated on-airport Perishable Cargo Handling Centre, "AISATS COOLPORT". This state-of-the-art facility meets the ever-increasing demands and handling requirements of temperature-sensitive cargo and further enhances India's position as the pharmaceutical and perishable hub.

- 40,000 MT per annum of terminal capacity
- 19,385 sq. ft. of export area
- 10,453 sq. ft. of import area
- Acceptance, staging, build-up at +25°C to +15°C
- 17 dedicated cold rooms (+8°C to -25°C)
- State-of-the-art Drug Controller Lab Facility
- Plant Quarantine Inspection and Certification facility

Menzies Aviation Bobba Bangalore **COLD ZONE**

The Cold Zone at BLR Airport is located at Menzies Aviation Bobba Bangalore, with the capacity to handle 20,000 MT per annum, i.e. 20 ULD pallets from 15°C to 25°C and 2 ULD from 2°C to 8°C.

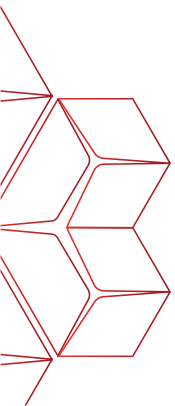

TECHNOLOGY THAT'S TRANSFORMING COLD-CHAIN CARGO AT BLR AIRPORT

IoT

An Internet of Things (IoT) based solution monitors temperature-controlled cargo enabling real-time supply chain visibility. This technology will enable live monitoring of temperature-sensitive products such as pharmaceuticals and perishables, including fruits, vegetables, meat, seafood, dairy products, cut flower, etc. BLR Airport is one of the few airports around the world to have such technology-enabled efficient handling of cold-chain cargo.

Enhanced Cold-Chain Offering at BLR Airport

The temperature-controlled supply-chain facility for the International Cargo at Kempegowda International Airport, Bengaluru, got a fillip with the introduction of the Envirotainer, a world leader in active cold-chain solutions for air cargo. This technology enables pharmaceutical companies and their logistics partners to move temperature-sensitive cargo across the world, while maintaining the integrity and quality of products throughout the journey. We have become the fourth Airport in the country and second in South India to partner with Envirotainer for efficient cold-chain technology.

BLR CARGO STANDARDS

At BLR Airport, stringent standards are established for our cargo and ground handling partners to ensure they deliver world-class services. These standards are regularly benchmarked against other international airports to ensure relevance and competitiveness.

Standards and Certifications of our Partners

- First Airport in India to be IATA e-freight compliant
- First and only Airport in India to have partnered with IATA Safety Audit for Ground Operations (ISAGO) compliance
- ISO: 9001 2008
- GDP certification as per WHO Performance Standards

Targets Achieved

PERFORMANCE STANDARDS	TARGET	ACHIEVED
Cargo acceptance within 30 minutes	95%	>98%
Acceptance cut-off time: Freighter Flight-Standard Time Departure (STD)	6 hours	3 hours
Flight completion time: Freighter Flight-Actual Time of Arrival (ATA)	4 hours	3 hours
Flight completion time: Passenger Flight-Actual Time of Arrival (ATA)	6 hours	100% within 6 hours
Acceptance cut-off time: Passenger Flight-Standard Time Departure (STD)	4 hours	100% within 6 hours
Delivery within 30 minutes	95%	>98%

SECURITY AND SAFETY

BLR Airport premises are secure by approved perimeter/boundary fencing on all sides and are guarded by trained security personnel who man all the strategic locations including access points. In addition, we have an extensive CCTV monitoring system comprising of 350 plus HD IP cameras with 45 days' back-up of digital recordings, that cover every part of the facility.

Our Partners' Certification

- ACC3 compliant as per European Union guidelines
- BCAS approval of Regulated Agent
- TAPA certified

Our Runway Compliance

- BLR Airport's South Runway is CAT IIIB compliant
- South Runway can facilitate aircraft landing with a Runway Visual Range as low as 50 metre and take-offs at 125 metres
- BLR Airport the only Airport in South India with CAT III B runway
- The first in South India to have parallel runways

EXPRESS CARGO TERMINAL BY BLR

India's largest Express Terminal and India's first dedicated Express Cargo Terminal, exclusively for export and import of international couriers. Developed by Bangalore International Airport Limited (BIAL) – operator of BLR Airport, this 2,00,000 sq. ft. built-to-suit facility houses leading global express courier organisations such as DHL Express, FedEx Express and UPS. Express Industry Council of India (EICI) will operate the Common-User Express Terminal for other courier companies.

AIRPORT TRUCK

MANAGEMENT FACILITY

CARGO VILLAGE BY BLR

Cargo Village is an area specifically created and demarcated for activities pertaining to transport, logistics and distribution of goods both for national and international transit. This area consists of a cluster of facilities such as warehouses, break-bulk centres, storage areas and offices. The Cargo Village by BLR has been developed to provide physical offices and warehouse spaces for various partners in the cargo ecosystem at BLR Airport.

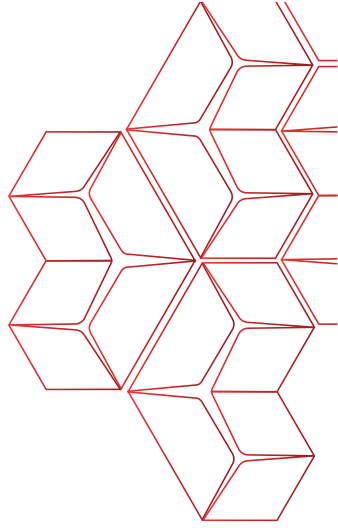

The 32,800 sq.m of the area at the Cargo Village by BLR consists of 120 units of warehouse-cum-offices measuring 750 sq. ft. each and 80 units of offices measuring 250 sq. ft. each.

Public Bonded **Warehouse**

This is the first-of-its-kind “On Airport Public Bonded Warehouse” in India which is operational 24x7.

Operated by Cargo Service Center (CSC), the 10,000 sq. ft. warehouse facility is under the jurisdiction of the City Commissionerate, Bengaluru Customs. This facility will reduce supply chain costs and facilitate trade at India's IT hub and surrounding regions. The Public Bonded Warehouse will help re-export of goods, long-term storage of bonded cargo, assist in partial clearances and allow value-added services such as labelling, packing and repacking services.

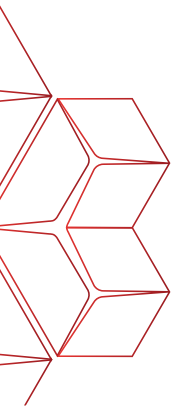

AIRPORT CARGO COMMUNITY SYSTEM (ACS)

Airport cargo Community System (ACS) is an electronic platform for digital interactions between Airport stakeholders such as shippers, freight forwarders, customs brokers, custodians, cargo handlers, airlines, transporters, consignees, customs and so on to ensure seamless communication across stakeholders.

Sustainable Impact of ACS

Through the paperless communication system of ACS, we have made a positive impact on the environment by saving 80 trees every month.

BLR AIRPORT IS THE NO.1 AIRPORT
FOR PERISHABLE SHIPMENTS

**DISCOVER NEW
POSSIBILITIES
WITH INDIA'S
NO.
AIRPORT FOR PERISHABLE
SHIPMENTS.**

- | Processed 48,130 MT of perishables – 31% of India's total perishable shipments
- | Perishable shipments delivered to 46 international destinations by 24 airlines
- | No. 1 Airport for exports of poultry products (28,182 MT) and flowers (1,296 MT) in FY 2020-21
- | The advantage of advanced infrastructure and innovative technology
